

AMENDMENTS TO THE ABSTRACT

Please replace the Abstract of the Disclosure currently of record with the attached new Abstract of the Disclosure.

--A control panel of a washing machine is provided. The buttons of the washing machine on a display panel are disposed independent from corresponding switches on a display substrate. The control panel includes a frame provided on a cabinet to form an exterior, a display panel on a front side of the frame to have at least one button formed thereon, a display substrate in rear of the display panel to have at least one switch formed thereon, and a lever between the corresponding button and switch to operate the switch by receiving an external force applied to the button.--
